WHARFBOAT MUST PERMIT LANDING OF FREIGHT FREE

When River Reaches Stage of Twenty-Eight Feet Or Over.

428 Feet Reserved for Free Boat Landing.

WATER FRONT APPORTIONED

Coalboats and flats are excluded from the 428 feet of wharf space north of the wharf front in the revised river front ordinance reported to the board of councilmen last night, which space is to be left open for a public landing. The wharfboat space was cut down from 323 feet to 250 feet, and the price raised from \$1 to \$2 per foot a year, and the following regulation provided to prevent embargo on freight during high water: "It shall be the duty of a wharfboat company to allow any person desiring to unload any cargo from any boat or to load any cargo upon said boat, to cross the wharfboat to or from the bank, to or from the boat, free of charge, when the river has reached a stage of 28 feet or over. Any person desiring to ship any freight upon any boat due to arrive within 24 hours, shall be privileged to deliver same to wharfboat and the person in charge shall be required to give a bill of lading and keep said freight until the arrival of the boat without extra compensation."

This provision is inserted because when the river reaches a stage of 28 feet it is impracticable to land freight anywhere except at the foot of Broadway. Boat schedules are ordinarily subject to 24 hours variation, and they could not wait for shippers to haul freight to them, after they arrived. So it is necessary to have the goods ready at the river front when the boat lands. If it is possible freight it might spoil on the bank.

Wharfboat's Duties.

The duties and authority of the wharfboat are fully set forth. City Solicitor Campbell and Wharfmaster Frank Brown having gone over the matter together, and the thus for disallowance of the wharfmaster's ample authority are raised. He can make boats that are not loading move out of the way for boats that wish to load or unload.

All wharfage charges for boats remain as heretofore, the barge, towboat and towboats being excepted, but towboats, unless undergoing repairs, can not remain at the bank longer than 48 hours. They are allowed 48 hours more after that for repairs, and the charges thereafter are \$5 the day.

After five days' notice in the papers the wharfmaster may sell any craft or barge, sunk or grounded, so as to block ingress or egress to or from the free wharf space. Wharfboats are not allowed to have anything but steamboats tied to them, and the wharfmaster must keep gasoline boats away from other craft.

For failure to perform his duty the wharfmaster is subject to fine.

The river front is divided as follows: From Kentucky avenue 24 feet south, making 160 feet in all, ferry landing; next 66 feet north, free space; next 250 feet north, wharfboats; next 428 feet, free landing space.

The Brewer Strike Spreads.

St. Louis, March 17.—A strike of all brewery workers in St. Louis and East St. Louis, Madison and Granite City, Ill., was ordered at noon today, owing to the refusal of allied breweries to reinstate discharged drivers, who refused to take out cards in the union controlled by August Priesterbach. Only engineers and drivers in Priesterbach's union remain at work.

RESIGNS FROM OFFICE.

Assistant Secretary Treasurer J. H. Edwards.

Washington, March 17.—Resignation of J. H. Edwards, assistant secretary of the treasury in charge of the financial bureaus of the department, which was tendered some time ago, will take effect tomorrow, when L. A. Coolidge, who has been confirmed by the senate, will take charge of the office.

Secretary Cortelyou said today that Edwards had decided to accept the re-election of the New Amsterdam National Bank of New York which was compelled to suspend during the late money stringency.

It is understood here that negotiations are in progress looking to the consolidation of the New Amsterdam with other financial institutions in its vicinity.

High License Bill Passes House and is Ready For Signature of Gov. Willson—Mayor Smith Wins Point.

Senate Bill, Fixing Maximum Saloon License in Cities of Second Class at \$500, Becomes Law.

A telegram, received in this city last night from Mayor Smith, announces that the amendment to the second class city charter, fixing the maximum saloon license at \$500, was passed by the house. It already had passed the senate and requires only the governor's signature to make it a law.

This is the first big victory for Mayor Smith's vigorous policy of administration, and he won it out at the eleventh hour. City Solicitor Campbell drew the bill and engineered it through the senate. He secured the promise of immediate reporting in the house, but some one frustrated his efforts, and he returned to Frankfort a week ago. Saturday Mayor Smith joined him, and together they made a fight to get the bill out of the hands of the committee. It was reported and put on passage the last hour in the next to the last day of the session with 60 bills on the calendar yesterday pressing for passage.

The passage of the bill is the financial salvation of Paducah this year. It was the avowed policy of the administration from the start to wipe out the floating debt of \$40,000 at the earliest possible moment and to this end appropriations were made to the minimum. In spite of every possible economy it was apparent that deficits were bound to occur, if the ordinary revenue of the city was depended on.

Unusual efforts to collect back taxes and especially poll taxes are being put forth by the city solicitor, and every cent of available revenue will be gathered in. There are 87 saloons now yielding a revenue of \$5,625 for the first six months. If the license is raised before the July licenses are due they will yield the second half of this year \$20,250. This will take care of a number of urgent improvements, especially on streets, and next year the city will be on its financial feet again.

CROKER BEHIND ROCHE

Dublin, March 17.—Richard Croker and others in a syndicate, backing Jim Roche in tonight's fight with Tommy Burns, decided to offer Jack Johnson, the negro heavyweight, \$10,000 to come here to meet the winner of tonight's contest. OFFICERS SCOFF AT CRITICISM OF OUR BATTLESHIPS

(By Norman Rose, United Press correspondent with Evans' fleet via wireless.)

Point Loma, Cal., March 17.—Target practice ends April 5. Five days later the fleet sails north reaching San Diego April 12. The mortality record is regarded as remarkable, five deaths occurring among 15,000 men in 85 days. Preparations are being made to forestall wholesale desertions when the squadron arrives at home ports. The log shows the fleet kept perfect formation on the journey except a half hour when the Vermont dropped out of the line to make repairs. Officers scoff at Henterdahl's charges, regarding the mechanism, but sustain his views, regarding the armor of ships.

Three officers were forced to dismount, surrender Winchester rifles, pistols and horses and were sent scurrying back over the hills on foot to Ochelata. The other three turned, fired, killed two of the bandits and fled as rifle bullets cut the air at dangerous quarters.

Rewards Are Offered.

Frankfort, Ky., March 17.—Tobacco will be raised in the burley district this year if the rewards offered for information in advance of intended violations of the law by night riders are accepted by members of these bands. Governor Willson has offered a reward of \$500 to any person who will give this advance information. He also offered a reward of \$500 for the apprehension and conviction of any two or more persons who band together for the purpose of intimidating, alarming, disturbing or injuring any person or destroying tobacco barns and warehouses, tobacco plants, scraping, salting, tramping tobacco beds, burning a residence or any tobacco, corn or other crops, poisoning cattle, writing and posting warning notes or sending intimidating letters. He specifies particularly that this reward stands for the persons poisoning the cattle of R. M. Squire, of Fayette county, and those persons burning the barns of George C. Graddy, Mrs. Elizabeth Pepper and John Harris and those persons firing at the residence of James Glass in Woodford county.

MANY FRUIT TREES ARE NOW IN FULL BLOOM.

Many fruit growers in the county are placing canvases hoods over their finest peach trees, fearing that a cold snap may come and kill the fruit, which has attained unusual growth on account of the warm weather. Many peach trees are almost in full bloom, while cherries and other early fruit are in full bloom and serious damage may be done even to the trees should a freeze come now. It is said that if the present good weather prevails throughout the next four weeks the fruit crop will be a bumper and exceed even the big peach years of 1900 and 1901.

GRAND JURY GETS AFTER MARSHALL CO. NIGHT RIDERS

Benton, Ky., March 17. (Special.)

Judge Reed empaneled the grand jury this morning and delivered a strong charge on the crime of night riding. He did not equivocate, but laid the responsibility on the jurors to uphold the law, declaring it was their duty as representatives of the better element of citizens, who deplore the outrages. The jury is composed of exceptionally good men, who listened with rapt attention, apparently deeply in earnest. None of them comes from the Birmingham section. Witnesses are being summoned.

No Cause is Assigned for Rash Deed, Which is Witnessed by Teamster, Who Finds Letter on the Bridge.

Louisville, Ky., March 17.—(Special.)

A man supposed to be George Goodman, of 827 North Sixth street, Paducah, jumped off the K. & I. bridge into the Ohio river this morning. He worked for Randolph & Bauer, and left his home in the east end apparently for his work.

A teamster saw him jump from the bridge mid when he got to the place where the man had stood he found a letter addressed to Goodman at his Louisville address. There is no reason for suicide. The bridge from which he jumped is a long way from his place of business. The body was found.

George Goodman was 21 years old and lived until last July with his mother, Mrs. Elizabeth Goodman, at 827 North Sixth street. He worked for the Stutz Candy company about three years. He is survived by his mother, his sisters, Misses Trux and Anna Goodman, of this city, and Mrs. O. T. Bathasar, of Pasadena, Cal., and his brothers, Clarence, a machinist at the Illinois Central shops, and Charles, of Helena, Ark.

There is no cause known for suicide. Mrs. Goodman just received a letter from her son, saying he was in good health and liked his work and was doing well.

BENNETT KILLING WAS MURDER SAYS TENNESSEE JUDGE

Clarksville, Tenn., March 17.—

Criminal court convened and Judge Tyler delivered a strong charge to the grand jury on night riding and the killing of young Vaughn Bennett, which took place several days ago. In referring to the killing of young Bennett he said:

"The circumstances attending the homicide are unusual, but their weight and importance can all be settled, in my opinion, by the application of plain and elementary law. If young Bennett had been killed while making an attack under the law the homicide would have been justifiable both legally and morally on the ground of self-defense."

If a band be riding along the highway by day or night, making no threatening demonstrations, and persons from ambush fire upon and kill one or more of them the killing can not be justified on the ground of self-defense, but must be deemed murder, and under the statute such a homicide would be murder in the first degree. He charged the jury to make a thorough investigation of the affair and urged that each juror counsel moderation and forbearance among those in the different localities, and let the law deal with each and all of the offenses as they may merit.

Guns Mounted in Street.

President Alexis in his proclamation on the subject of the recent conspiracy, after stating that Gen. Firmin had been conspiring in the French consulate at Gonaives to bring about an uprising here March 15, says:

"Massillon Colson, in the presence of clear proofs of his guilt, confessed his crime and denounced his accomplices. Documents found in his possession show that even officers of the palace guard were among the conspirators. The plan of the conspirators was to assassinate the chief of state and the principal members of the government. Those captured with arms in the hands received only the punishment which their anarchical project deserved. The treacherous officers are now being tried by court-martial."

The situation here last night was terrifying. Troops were stationed at every street corner, and sentries and watchmen kept watch at intervals. All the streets leading to the palace were defended by guns so placed as to stop all traffic.

The Haytian government is concerned about rumors indicating that the blacks are joining with Gen. Fermin against President Alexis. The renewal of caste hatred adds to the gravity of the situation.

MR. ALDRICH WILL NOT KNOW MEASURE WHEN IT IS DONE

Washington, March 17.—Charging

that the "The System" created the recent financial panic for its own profit and declaring that the law, making railroad bonds security for circulation would enable the Standard Oil and Morgan interests in New York to control the country's financial system, Senator LaFollette attacked the Aldrich bill in the senate this afternoon.

The senate finance committee decided to eliminate from the Aldrich bill the provision making railroad bonds acceptable as security for emergency circulation. The committee will restore the provisions of the present law limiting national bank circulation that can be refitted in any one month to nine millions. The Aldrich bill originally removed the limit.

LIGHT ON OTHER SIDE.

Some Philanthropic Work of the Union.

The fraternal and beneficial features of the International Typographical Union are many and varied. New phases of these sterling trade union traits are constantly coming to light, writes a Boston correspondent.

As an illustration, a printer recently met with a severe accident, and his death followed. The man was identified by his union card, and the officers of the Boston local immediately took charge of the body, made all necessary arrangements for the funeral (the member having no relatives there), ascertained his religious faith and had a minister of that church officiate at the burial, which was largely attended by printers and members of the Woman's Auxiliary to the typographical union, who accompanied the departed brother to his last resting place. After the funeral his effects were shipped to his relatives in England. All expenses were paid from the (international and local death benefit fund.

Another somewhat similar case followed shortly afterward, and was treated in the same manner, which goes to show that the same course is pursued in every instance. In this case the member died from natural causes, but rather unexpectedly. As he had no relatives in this country, the typographical union provided burial, closed up his affairs and forwarded his property to relatives. The services were largely attended by his fellow workers, and the beautiful floral tributes attested the esteem in which he was held. He had been a prominent member of the local union.

To prove that these brotherly acts are not confined to the well known members, however, the case of a poor, unfortunate, who died from a lingering disease, during which he was visited and comforted by members of the woman's auxiliary, may be noted. At his death the union officials assumed full charge of all arrangements, financial and otherwise, and his funeral services were as largely attended and as much regret shown at his death as had characterized that of the members who had been more fortunately placed.

Daily Thought.

The rest of religion is for the weary, not the lazy.

The Rev. Jere Knobe Cook, who ran away with his beautiful ward, and deserted his wealthy wife and two children, is reported as being tired of it all. The Rev. Jere Knobe seems to be of that temperament which requires excessive variety.

Any kind of trash goes in the trash boxes down town. Quit throwing things in the street.

March came in like a lamb, which reminds us it is just as well to keep on our lamb's wool a while longer.

SOMEBODY GET A MUZZLE.

When a consistent party man sees a fellow like Dr. Ben Bruner going about without his muzzel, he feels like advocating a return to the days of the political boss and the puppet in office. In those days the fellow with the job, at least, was not permitted to jeopardize party success by his mouthings.

Dr. Ben Bruner has always been considered what is called "a good fellow," and for that quality alone, when the opportunity came, the Republican leaders of the state, including the federal officeholders, united to secure for him the nomination for secretary of state; but while, no doubt, he will fulfill the simple routine requirements of that position, some of those who were his friends, and are still his friends, will regret that such a conspicuous office was thrust on one so indiscreet with his tongue. Doctor Ben's enthusiasm is wonderful; but he apparently never has fully matured.

He has been raving ever since he attended the First congressional district convention. He spent the evening while in Paducah trying to get some local reporter to send a report of the convention to the Louisville Herald as he saw it; but failed. Then he issued a brief on the subject. If Doctor Ben's declaration that he came "to Paducah just to see how the convention was conducted," and that he was "only a spectator," is as true as everything else he said about that convention, Doctor Ben lacks some other qualities besides maturity.

Such misstatements, however, might be excused in the excitement of defeat; but his attack on the national administration puts him beyond the pale. Fairbanks' strongest supporters in Kentucky, if he has any, conspicuous ones of a different type from Bruner, should muzzle Ben or give him a few dollars to keep his mouth shut. How can the Republicans expect to win the next national light, especially in Kentucky, with Republican officeholders, no matter how lightly we may esteem them ourselves, actually abusing and repudiating the administration, whose policies must be the issues of the campaign? If our officeholders denounce the present administration, the voters of the country—the voters of our own party—may well say, how do we know you will not repudiate your candidate as soon as he is elected?

Bruner makes a straight out attack on Secretary of War Taft. Will he take the stump against Taft, when Taft is nominated? Or will he sit sulking in his tent during the campaign? The Democrats of Kentucky have had the same sort of experience,

with Hays and others taking the stump in a primary, forging bolts for the Republican campaigners the next fall.

There were no Republican state officials when the last successful state campaign was waged. The federal officeholders were the politicians then. Now the state offices have been filled and some of the officials assume to represent Kentucky in all things political. If Doctor Bruner and one or two other "weak sisters" continue their publicity policy and the state goes Democratic next fall, who will be responsible? Naturally the columns of the Democratic papers will be open to anything Doctor Ben wishes to say against the Republican party. While we are not the least afraid that Bruner can do Fairbanks any good in Kentucky or elsewhere, his official position makes it possible for him to do the Republican party a deal of harm.

WEST VIRGINIA FOR TAFT.

The United States senators from West Virginia, Elkins and Scott, are men of large wealth and varied corporate interests, and it has been understood that their natural sympathies were with the reactionary element that opposes the administration in the south, but they recognize the tremendous tide for Taft that is sweeping their state and the whole country, and will state and set themselves up in judgment against the sentiment of the people.

Senator Scott was in Wheeling a few days ago and referring to the report that he would lead an anti-Taft movement in West Virginia, gave an authorized interview in which he recognized that Taft sentiment controls every section of his state. "I have noticed an effort in some quarters to cause it to appear that the West Virginia senators were opposed to the president's policies and especially inclined to Mr. Taft," said Senator Scott. "This does me an injustice, and I am sure it does an injustice to Mr. Elkins. I am a personal friend of Mr. Taft. I was one of the party that accompanied him to the Philippines three years ago, and it is not too much to say that no one could be associated with Mr. Taft daily and almost hourly for almost three months without falling under the charm of his personality and being drawn to him by the strongest bonds of regard and esteem. He is a great man, a great statesman, and a great executive. If nominated he will make a great president."

"As matters now stand, Secretary Taft is undoubtedly the choice of a very large number, if not a clear majority of the Republicans of West Virginia, and undoubtedly that sentiment will be reflected to a large degree in the delegation that will be sent to Chicago. Several of them, I might say, are my personal friends, and the most of them are, I believe, for Secretary Taft for president."

Speaking editorially of the interview, the Wheeling Intelligencer says: "Mr. Scott frankly recognizes the growth of sentiment for Mr. Taft in West Virginia and makes it clear that while he has personal and friendly relations with all of the active presidential candidates, the development of the Taft sentiment is entirely satisfactory to him. In Mr. Taft he sees a great man, a stalwart Republican and a splendid executive."

SLIGHTLY HUMOROUS.

Many a woman advances step by step until she becomes a stepmother. It's easier for a woman to hold a strong man than her own tongue.

Many a man's reputation for wisdom is due to his ability to keep his mouth shut.

Extremes Meet Again.

Bowler—Hello, Trizge, it must be years since I saw you! Great Scott! How tall you are too!

Sofiat—Yes, I'm pretty tall, but curiously I am always as "short" as ever.

"I believe this is the second time you have been sent up," said the judge, severely.

"Yes, Yer Honor," replied the tattered wayfarer, "and I wish to express President Roosevelt's sentiments."

"And what are the sentiments?" "I don't want a third term."—Chicago News.

Ignominy of the Rudiments. "What a singular looking counterpane!" said the eminent physician.

"Counterpane!" exclaimed his wife. "Yet you are supposed to be one of the greatest authorities in the county on brain diseases!"

"I fail to see the connection." "That's a racy quill, you nunny."—Chicago Tribune.

THE MYSTERY

CHAPTER III.

BILLY EDWARDS came on deck with a line of irritation right angling the furrows between his eyes.

"No, no," the quarter deck bade him, seeing him alight with information.

"The captain won't believe me," blurted out Edwards.

"Is it as bad as that?" asked Barnett, smiling.

"It certainly is," replied the younger man seriously. "I don't know that I blame him. I'd hardly believe it myself if I hadn't."

"Oh, go on! Out with it! Give us the facts. Never mind your credibility."

"The facts are that there lies the Laughing Lass, a little weather worn, but sound as a dollar, and not a living being aboard of her. Her boats are all there. Everything's in good condition, though none too orderly. Pitcher half full of fresh water in the rock. Sails all O. K. Ashes of the galley fire still warm. I tell you, gentlemen, that ship hasn't been deserted more than a couple of days at the outside."

"Are you sure all the boats are there?" asked Ives.

"Dory, dingy and two surfboats. Isn't that enough?"

"Plenty."

"Been over her, inside and out. No sign of collision. No leak. No anything, except that the starboard side is blistered a bit. No evidence of the anywhere else. I tell you," said Billy Edwards pathetically, "it's given me a headache."

"Perhaps it's one of these cases of panic that Forsythe spoke of the other night," said Ives. "The crew got frightened at something and ran away, with the devil after them."

"But crews don't just step out and run around the corner and hide when they're scared," objected Barnett.

"That's true, too," assented Ives. "Well, perhaps that volcanic eruption jarred them so that they jumped for it."

"Pretty wild theory, that," said Edwards.

"No wilder than the facts, as you give them," was the retort.

"That's so," admitted the ensign gloomily.

"But how about pestilence?" suggested Barnett.

"Maybe they died fast, and the last survivor, after the bodies of the rest were overboard, got delirious and jumped after them."

"Not if the galley fire was hot," said Dr. Treadon briefly. "No; pestilence doesn't work that way."

"Did you look at the wheel, Billy?" asked Ives.

"Did I? There's another thing. Wheel's all right, but compass is no good at all. It's regularly bewitched."

"What about the log, then?"

"Can't find it anywhere. Handed high, low, Jack and the gauge; everything except in the log, lanes found—chest I found in the captain's cabin. Couldn't break into that."

"Dr. Schermerhorn's chest?" exclaimed Barnett. "Then he was aboard!"

"Well, he isn't aboard now," said the ensign grimly. "Not in the flesh. And that's all," he added suddenly.

"No, it isn't all," said Barnett gently. "There's something else. Captain's orders?"

"Oh, no. Captain Parkinson doesn't take enough stock in my report to tell me to withhold anything," said Edwards, with a trace of bitterness in his voice. "It's nothing that I believe myself, anyhow."

"Give us a chance to believe it," said Ives.

"Well," said the ensign hesitantly. "There's a sort of atmosphere about that schooner that's almost uncanny."

"Oh, you had the shudders before you were ordered to board," bantered Ives.

"I know it. I'd have thought it was one of those fool presentiments if I were the only one to feel it. But the men were affected too. They kept together, like frightened sheep. And I heard one say to another, 'Hey, Boney, d'you feel like some one was a-buzzin' your nerves like a fiddle string?'"

"Now," demanded Edwards plaintively, "what right has a jackle to have nerves?"

"That's strange enough about the compass," said Barnett slowly. "Ours is all right again. The schooner must have been so near the electric disturbance that her instruments were permanently deranged."

"That would lend weight to the volcanic theory," said Crier.

"So the captain didn't take kindly to your go-look-see?" questioned Ives of Edwards.

"As good as told me I'd missed the point of the thing," said the ensign, flushing. "Perhaps he can make more of it himself. At any rate he's going to try. Here he is now."

"Dr. Treadon," said the captain, appearing. "You will please to go with me to the schooner."

"Yes, sir," said the surgeon, rising from his chair with such alacrity as to draw from Ives the sardonic comment: "Why, I actually believe old Treadon is excited."

eried Ives. "He didn't clear up the mystery."

"That's what," said Treadon. "One thing Billy said, he missed, was that unusually prolix for him, 'was truer than maybe he knew.'"

"Thanks," murmured the ensign. "What was that?"

"You said 'Not a living being aboard.' Exact words, hey?"

"Well, what of it?" exclaimed the ensign excitedly. "You don't mean you found dead?"

"Keep your temperature down, my boy. No. You were exactly right. Not a living being aboard."

"Thanks for nothing," retorted the ensign.

"Neither human nor other," pursued Treadon.

"What?"

"Food scattered around the galley. Crumbs on the mess table. Ever see a wooden ship without cockroaches?"

"Dr. Treadon, you will please to go with me to the schooner."

"Never particularly investigated the matter."

"Don't believe such a thing exists," said Ives.

"Not a cockroach on the Laughing Lass. Ever know of an old hooker that wasn't overrun with rats?"

"No, nor any one else. Not aboard water."

"Found a dozen dead rats. No sound or sign of a live one on the Laughing Lass. No rats, no mice, no bugs. Gentlemen, the Laughing Lass is a charmed ship."

"No wonder Billy's tender nerves went wrong," said Ives, with impressive alacrity. "She's probably haunted by cockroach wraiths."

"He'll have a chance to see," said Treadon. "Captain's going to put him in charge."

"By way of apology, then," said Barnett. "That's pretty square."

"Captain Parkinson wishes to see you in his cabin, Mr. Edwards," said an orderly, coming in.

"A pleasant voyage, Captain Billy," said Ives. "Slog out if the gullies sit yer."

Fifteen minutes later Ensign Edmonds, the boat's mate and a crew, was heading a straight course toward his command, with instructions to "keep company and watch for signals," and intention to break into the house bound chest and forget out what else he heard Barnett and Treadon, with both of whom the lad was a favorite, came to a sinister conclusion.

"It's poison, I suppose," said the first officer.

"And a mighty subtle sort," agreed Treadon. "Don't like the looks of it." He shook a solemn head.

G. A. R. at Louisville.
Louisville, March 17.—At a meeting of the members of the local posts, G. A. R., held yesterday afternoon, a committee was selected to make arrangements for the annual encampment of the Kentucky Department, which will be held in this city May 12 and 13. The annual encampment of the Kentucky department was held in Louisville last year and so well pleased were the members with the reception accorded them by the local members and the public generally that an invitation to have the encampment here this year was readily accepted.

Novel Club in Hopkins County.
Hopkinsville, Ky., March 17.—A club of young men has been formed at White Plains, in Hopkins county, which, probably, has no counterpart in the country. The chief feature of this club is that when joining, the prospective member takes a solemn pledge to eschew all such bad habits as cigarette smoking, swearing, drinking, etc. The club started with twenty charter members, and indications are that the membership will rapidly increase. In addition to its other objects the club has a sick fund for the benefit of its members.

SKIN ON FIRE—AGONY UNREARABLE.

Terrible Itching, Throwing Skin Disease Now Quickly Cured.

A purely vegetable external remedy that has been proved beyond all possible doubt to cure the worst cases of Eczema and all skin diseases can now be procured by all skin sufferers. This remarkable remedy is Dr. D. D. Prescription, the discovery of Dr. Deatur D. Dennis, the well-known skin specialist, and is being manufactured by the D. D. D. Co., 112 Michigan street, Chicago, Ill. The demand for this remedy has become tremendous within a short time because people are just learning that the hundreds of cures it has made seem to be permanent.

Eczema and all diseases of the skin must be treated locally, according to the views now held by foremost skin specialists and physicians; that is you must doctor the itch where the itch is. It is useless to attempt to cure skin diseases by taking drugs and medicines into the stomach. The disease is not in the blood. It is in the skin and only skin deep. You must get at the seat of the disease and kill the germ by making direct applications to the skin.

Mrs. L. H. Powell, Box 414, Cantharville, Mo., writes: "Words cannot convey my full appreciation of Dr. D. D. D. The face of my baby boy was a solid seah, when I accidentally heard of Dr. D. D. D. I secured a bottle at once and began to apply it. It was miraculous in its cure. It healed my baby's face completely. If anyone wants further information about this I shall be only too glad to hear from them."

Testimonials of hundreds of cases of remarkable cures by Dr. D. D. D. Prescription and an interesting booklet on skin disease and its treatment, exercise, diet, bathing, etc., may be had free by calling on R. W. Walker & Co., where Dr. D. D. D. Prescription and Dr. D. D. D. Soap will be found on sale.

It will be a pretty social occasion with a number of attractive features.

Pretty Birthday Party Quaintly Featured.

Mr. and Mrs. G. W. Lee entertained very delightfully the members of Magnolia Grove No. 2, of the Woodmen of the World circle, last evening at their home on South Third street. It was an old-time dress party and was in honor of the birthday of Mrs. Lee. The house was attractively decorated throughout in green and purple, the Magnolia Grove colors. The guests were in quaint old-time costumes that added to the effectiveness of the scene.

Mrs. Lee wore her mother's wedding dress, the skirt of which was 65 years old. It was of green and gold silk with a handsome old-fashioned black point lace shawl draped over it. She was assisted in receiving by her two daughters, Miss Julia Lee and Miss Clara Lee, who were also quaintly attired. Many of the costumes were heirlooms of interest. Mrs. J. A. Maxwell wore a tucking comb that was 96 years old and was a handsome and valued ornament.

Old-time games were features of the evening's pleasure. In a flower contest Mrs. George Lehnhard won the prize. In a musical contest Mrs. Clyde Cummings carried off the honors. Both prizes were pretty bunches of flowers. A delightful three-course luncheon was served during the evening. The green and purple color-motif was prettily emphasized throughout in the decorations of the dining-room table and the luncheon appointments. The popular hostess was remembered with a number of handsome gifts in celebration of the occasion.

Those present were: Mr. and Mrs. George Lehnhard, Mr. and Mrs. J. A. Maxwell, Mr. and Mrs. George Hendrick, Mr. and Mrs. Fred Mitchell, Mr. and Mrs. Clyde Cummings, Mr. and Mrs. A. Vomp, Mr. and Mrs. Dan Galvin, Mr. and Mrs. Henry Lehnhard, Mr. and Mrs. Conilland, Mr. and Mrs. J. H. Snyder, Mr. and Mrs. Jake Elthorne, Mrs. Eva DeLoach, Mrs. Eliza Cross, Misses Marie DeLoach, Edna Kirkham, Ruth Phelps, Clara Lee, Julia Lee, Dr. H. Williamson, Mr. C. A. Garner.

APPENDICITIS

Grape-Nuts as a Reconstructing Food.

The number of cases of appendicitis which get well by proper feeding and nursing, is not less remarkable than the number of cases which were formerly operated on only to find that the operation was unnecessary. While looking for the cause of this disease, it is well to remember that excessive starch fermentation may be considered a frequent cause, and that suggests more care in the use of starchy foods.

Grape-Nuts can be retained on the most sensitive stomach and is extremely nourishing—just the ideal food for appendicitis cases.

Last spring I was taken ill with appendicitis," writes an Ind. man. "The doctor told me not to be alarmed, for he would do the best he could to save me from the operating table."

"He advised me to eat nothing for two weeks, during which time I became so weak I could hardly move. The trouble began to leave me and I began to eat fruits and milk, but I did not regain the strength I had before I was sick."

"A friend of mine recommended Grape-Nuts. I tried it and it worked wonders with me. I soon began to gain in strength, and in a month was as strong as ever."

"I don't think I ever used a food that did me so much good. I now weigh 160 pounds as against 130 before I was sick, all due to Grape-Nuts and regular exercise."

"My muscles are like iron and I can do the hardest work. Being employed in a printing office, I have to think a lot, and my mind is clear, thanks to Grape-Nuts." "There's a Reason," Naute given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in packages.

Keeping Close Watch.

Kuttawa, Ky., March 17.—Since the raid of the night riders at Eddyville the populace of this city have been in constant fear of an invasion, several having received warning notices, that they "talked too much," while others were informed to discharge undesirable employees.

Fifteen days, the latter request having been granted, fearing their property, as well as their personal feelings were involved. Hardly a night passes without the town being under guard or special officers being detailed to patrol the suburbs and outskirts to ascertain if any scouts or suspicious characters are lurking around.

Several small depredations have occurred within the last three days, and about two miles from this city, better known as "across the river," where raiders visited the poultry yards and barns of several of the well-known farmers.

They first visited the house of Ed Law, reme, seizing chickens to the number of fifteen, wrung their heads, leaving them as evidence of what probably would have happened had he made his appearance. Then to the residence of David Griffin they made their way, firing almost unceasingly as a warning to "stay in." On their arrival, they made good in destroying his covey of fowls, which were geese, chickens and turkeys. Several other places received similar visits.

Snake Venom is costly.

Snake venom is one of the strangest as well as most costly articles of commerce. There is a growing demand for it in medicine and other branches of science. A large part of the supply comes from Australia, and a Sydney quotation placed the market price recently at \$5 to \$6 grain, or about \$39,000 a pound troy. Venoms are now being classified. Tiger snake venom comes first, as it is 16 times as deadly as that of the black snake and four times as powerful as that from the brown snake or death adder. In average yield a bite from the death adder supplies three times as much as the tiger snake and 17 times as much as the brown snake. So far the snakes have been mostly captured by hand to avoid loss of the venom. They are made to bite through a rubber band, ejecting upon a glass plate the venom from the two poison fangs in the upper jaw.—Indianapolis News.

INFLAMMATION OF THE KIDNEYS

In home talk "Kidney Trouble" is inflammation of the kidneys without albumen. "Bright's Disease" is inflammation of the kidneys with albumen. In each the real trouble is INFLAMMATION OF THE KIDNEYS, hence a cure for one must be a cure for the other. There has been no cure for either.

But many kidney troubled people get well! True—because inflammation of the kidneys unless severe commonly gets well at first. But if it does not yield early and the inflammation persists, the real trouble begins.

You can see why kidney disease has been incurable and why the deaths have risen to over 170 per day—up to the discovery of Filton's Remedy. Compound there was nothing known that would reduce inflammation some of them being actually harmful. Result—physicians have abandoned them.

No matter whether you call it "Kidney Trouble," "Nephritis," or "Bright's Disease," if it has been hanging on a few months recovery can be only hoped for through this specific. It has a proven efficiency 1 unearily 87 per cent of all cases. It is the only thing known that controls inflammation in the kidneys, which is the real difficulty with kidney troubled people.

ST. PATRICK'S DAY IN AMERICA.

Written by Mrs. John J. Dorlan for the Kentucky Irish American.

The Kentucky Irish-American, of Louisville comes out in green today in honor of the occasion and contains the following St. Patrick's day article, of unusual interest to Paducahans:

In proportion to the size of the city, Paducah has as many loyal Irish-American sons and daughters as are to be found in Kentucky. Mrs. Katie M. Dorlan, the estimable wife of Col. John J. Dorlan, city treasurer of Paducah, pays the following tribute to Erin's patron saint:

"The name of St. Patrick is one of the immortal names of Christianity. Almost everybody knows that it was this apostle who in the fifth century converted ancient Ireland from pagan worship to the standard of the cross. When he landed on Erin's shore he found a race of people deeply imbued with religious zeal—sun worshippers—an enlightened order of ancient paganism. Their rulers, and Druid priests were men of much culture. They debated every point at issue with St. Patrick and he seems indeed miraculous that even this most remarkable man should have lived to witness the conversion of that nation to the Christian faith without the sacrifice of a drop of blood.

"Therefore the name of St. Patrick naturally above all else suggests thoughts of religion, and his anniversary, which means so much to a very important branch of the human family, carries the mind back for more than fourteen centuries of the most interesting period of the world's history.

"But it is not the religious or more serious phase of this anniversary, the observance of which endures the globe which is to be considered here, but the social features of the day.

"In dear old Ireland friendly social intercourse is one of the great features of this anniversary; also in nearly every important city of Europe, Irishmen and their descendants will meet in social reunion. In far off Australia and New Zealand, of the southern seas, thousands of the loyal sons of Saint Patrick will meet with love and affection pledge their undying loyalty to their oppressed motherland. In the western world, in the Dominion of Canada, from our great lakes to the frozen north, true and patriotic men will meet in social

reunion and renew their devotion to the dear old land.

"Perhaps nowhere on earth does Irish sentiment find such beautiful and poetic expressions as it does on St. Patrick's day in this glorious republic of America. The sturdy sons of that dear ancient Isle have been prominent factors in the upbuilding of this great nation. Their strong arms have constructed most of our immense public improvements. Their eloquence, statesmanship and patriotism have inspired, directed and elevated our political life at bench and bar, in the state legislatures, in both houses of congress, extending even to the white house. Their sons have been among our greatest, best and most patriotic soldiers, in every struggle from Bunker Hill to Santiago.

"No wonder that when the 'Exiles of Erin' meet around the banquet board as free and loyal American citizens, their celebration of this great holiday surpasses in grandeur and elegance all other celebrations.

"The thrilling story is told once more.

The inspiring song is heard. And memory to that sacred shore Brings back with magic word The scene of glorious victory won. The hope that can not die, That Ireland's flag and golden sun Will yet illumine the sky—And symbolize to men oppressed, Where'er their home may be, The help on which their hope may rest.

When Ireland shall be free."

BLOOD POISON HUMILIATING-VILE-DESTRUCTIVE

The first symptom of Contagious Blood Poison is usually a little sore or ulcer, which is quickly followed by a red rash on the skin, swollen glands in the groin, falling hair, ulcerated mouth and throat, and even copper colored spots on different parts of the body. As the blood becomes more fully contaminated with the poison, pustular eruptions and sores break out on the flesh, and in extreme cases the nerves and bones are attacked and the finger nails drop off. Then the sufferers find themselves diseased from head to foot with this humiliating, vile and destructive poison. No other disease is so highly contagious; many an innocent person has been inoculated by handling the clothing or using the toilet articles of an infected person. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S. It attacks the disease in the right way by going down into the circulation, and neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, tones up the system, and completely and permanently cures this disease. S. S. S. has cured thousands of cases of Contagious Blood Poison. If you are suffering with this debasing and destructive disease begin the use of S. S. S. and get the poison out of your blood before it permanently wrecks your health. We have a home treatment book on the disease which we will send free to all who wish it, and in addition our physicians will give without charge any medical advice needed. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

CABINET MEMBERS WILL REMAIN AWAY

Decide Not to Attend National Republican Convention.

Urey Woodson Will Be Candidate for National Committeeman to Succeed Himself.

HOUSE HUMORIST ON MAINE

Washington, March 17.—Secretary of State Root will not go as a delegate-at-large to the Republican convention at Chicago, even should Governor Hughes request him to serve; nor will Secretary Cortelyou. In fact, it has been decided that no member of the cabinet shall go to the convention as a delegate. The matter has been considered by the president and the cabinet and a suggestion by Mr. Root that he be allowed to remain away from the convention met with the approval of the president. It was felt that if cabinet members went to the convention it might be susceptible of misconstruction and contingencies might arise in which there might be great embarrassment for the president and his official family.

Out of Politics, Says Judge Lansing. Washington, March 17.—Judge Lansing, when seen by an Evening Post correspondent, said that his mission here is of a business nature purely. He spent considerable time watching the proceedings of the house. "There is nothing political in my visit," he said, "I am out of politics."

Woodson to Serve Again. Washington, March 17.—Urey Woodson and Judge J. M. Lansing set the politicians to guessing when they came in together from Kentucky. "Will you succeed yourself as National committeeman from Kentucky?" was asked. "It begins to look as if I am in for it," he replied.

Would Let Maine Rest. Washington, March 17.—Representative J. Adam Bede, the house humorist, wants to know how it would be possible to unlight the Spanish war. Mr. Bede fears that it was all a mistake, that we are going to find it out pretty soon and that in good conscience we must undo all that was then done. Representative Harrison, of New York, has introduced and secured favorable report on a resolution to have the wreck of the Maine raised in Havana harbor and the bodies of victims still in the bulk removed and buried with proper honors. The resolution, according to all accounts, is going to pass.

FUTURE BRIGHT

SECRETARY OF WAR TAFT ON COLORED RACE.

Review Progress for Half Century and Says Negro Race is Now Over.

New York, March 17.—Speaking before a representative Brooklyn audience at Plymouth church last night Secretary Taft expressed an optimistic conviction concerning the future of the colored race in the United States. After presenting an array of statistics to show the progress of the American negro since the day of freedom, the secretary declared that his growth in intellect, learning and industry must continue.

Fear of negro domination in the south was, he said, a night mare of the past. With the advantage of education and opportunity the colored population would take its proper place in the political affairs of the nation.

The occasion of the secretary's speech was a meeting under the auspices of the Armstrong association and in the interest of the Hampton Institute of Virginia. Preceding Taft's address, Dr. Booker T. Washington, head of Tuskegee Institute, spoke, as did also Dr. H. P. Prissel, principal of Hampton Institute.

ESTIMATES CUT THIRTY MILLION

Sub Committee on Appropriations Reports.

Department's Request for \$38,143,000 Ignored, Only \$8,200,000 Was Allowed.

THE BEST IS FOR ISLANDS.

Washington, March 17.—The fortifications bill, carrying \$8,200,000 instead of \$38,143,991 asked for by the war department, was reported today to the house committee on appropriations by the sub-committee.

The sub-committee felt, aside from other considerations, that to recommend the appropriation of thirty-eight millions for fortifications at this time would be an action which might be very reasonably construed by Japan as an official declaration that the United States was preparing against a war with that nation.

The amount recommended by the committee is larger than any which has been annually appropriated since the Spanish-American war. Cutting down of the department's estimates by \$30,233,331 means among other things, that the committee has recommended practically nothing for the continental United States and has appropriated mainly for the Hawaiian and Philippine islands.

The committee has turned down entirely the department's proposal for the fortification of Manila harbor by construction and fortification of an artificial island, and nothing is carried for Subig Bay, but provision is made for the fortification of Carabao Island in Manila Bay.

The only points in the continental United States appropriated for in the bill as revised by the committee are: Deception Pass, Puget Sound; at Charleston, S. C.; Pensacola, Fla.; Mobile, Ala., and various points where expenditures are required for installation of range finding apparatus.

For the Hawaiian Islands practically everything is allowed that was recommended by the Taft board excepting the fortification of Pearl harbor.

HEALTH OF ANIMALS BEST BECAUSE OF GOOD DIGESTION

An interesting interview was recently obtained with L. T. Cooper, the young man whose theory and medicines have created such a sensation during the past year.

Mr. Cooper, in speaking of the remarkable success of his medicine, had this to say on the subject: "My medicine regulates the stomach. That is why it is successful. The human stomach today has become degenerate, and is the cause for most ill health. In the horse, the dog, and the wild animals generally, you see no nerve exhaustion, no chronic debility. They are not shut up day after day with practically no exercise, and they are not able to stuff themselves with food when their bodies have not had enough work to justify it. The human race has been doing this for years, and look at the result—half the people are complaining of poor health, not real illness—just a half-sick, tired, drooping feeling. They don't really know what is the matter with them.

"I know that all the trouble is caused by weak, overworked stomachs. I have proved this with my medicine to many thousands of people in most of the leading cities of this country. I expect to do the same thing in Europe next year. This is the real reason for the demand for my preparation."

Among those who have recently been converted to Cooper's theory is Mr. Monroe Brown, of 8 Hancock street, Wobchester, Mass. Mr. Brown

has this to say of his experience with the new medicine: "For over seven years I suffered with catarrh of the stomach, and for the past year I was lame with rheumatism. I attributed this to my stomach trouble, as my circulation was very poor. What food I ate would turn to gas almost at once. I would have a sensation of bloating, and would have to belch frequently to relieve this. My heart also became affected, and I would suddenly become dizzy and have palpitations. I was tired and dull and despondent at all times. I lost a great deal of flesh, and was nervous and depressed. This went on for over seven years, although I spent hundreds of dollars trying to get relief.

"When Cooper was in Boston I heard a good deal about his ideas on stomach trouble. Next, one or two friends told me that his medicine had greatly helped them. I purchased some of the New Discovery medicine. Today I am perfectly well; I sleep like a boy, can eat anything and have no rheumatism or heart trouble. I no longer have any gas on my stomach, and feel as I did years ago. No one could be more astonished by these facts than myself. They are remarkable, but true. This is indeed a wonderful medicine."

The Cooper preparations have been more widely sold and discussed since being introduced than anything of the kind ever before sold by druggists. We sell them and explain their nature.—W. H. McPherson.

ICE MEN DOING LIVELY BUSINESS THIS SPRING.

"How would you like to be the ice man?" is a merry song now for the ice dealers are doing a rushing business, that will almost compare with the summer trade. Since last week the average sales have been 12 tons, but today the demand was heavier and it is expected that 15 tons will be distributed over the city. Today for the first time many housekeepers ordered ice to preserve perishable vegetables. The supply of ice in storage at the factory has about been exhausted and tomorrow the factory will begin a run of several days to replenish the stock. The ice men are wearing broad smiles, and confidently say they believe the demand for ice will be steady now.

What to do in Dyspepsia

Dieting has become a great fad in
America, and just as, years ago, we, as
a nation, over-eat, so now we are under-
eating. The one is as bad as the other.
Man needs food and plenty of it to sus-
tain life and to give strength to compete
in this busy world.

It is not, however, the fact that you
may eat too much that hurts you, but
that you don't digest what you eat.
And if that results in dyspepsia you will not
cure the trouble by eating down your food sup-
ply. If your digestive organs were creating the
proper amount of gastric and pepsin juices you
would have no dyspepsia. To cure the disease
you must create an abundance of these necessary
juices.

This can only be done by a reliable tonic like
Syrup Pepsin, and as its name indicates, the
Syrup Pepsin contains the very ingredients
needed to do this. Take it regularly for awhile
according to the explicit directions on each bot-
tle and you will soon be cured of dyspepsia and
any of the accompanying symptoms such as
heartburn, sour stomach, bloating, stomach
aches, flatulence, indigestion, wind on the stom-
ach, etc. Every bottle carries with it an abso-
lute guarantee to do what we claim. It is a gen-
tle, pleasant, effective laxative and you will like
its taste and be pleased with its action.

One of the great friends of this remedy is
Henry E. Kessler, a lieutenant in one of the Chi-
cago companies that fought at the battle of
Chancellorsville. While in the wet trenches, and eat-
ing the rough food of a soldier, he contracted
severe dyspepsia and lost weight rapidly. A
friend in the regiment called his attention to
Dr. Caldwell's Syrup Pepsin, and he promptly
began to use it. It not only cured his dyspepsia
but increased his weight 25 pounds.
Your druggist will sell you a bottle at 50 cents
or if you will send it worth a hundred times

FREE TEST Those wishing to try Dr. Cal-
dwell's Syrup Pepsin before buying
can have a free sample bottle sent to their home by
addressing the company. This offer is to prove that the
remedy will do as we claim, and is only open to those
who have never taken it. Send for it if you have any
symptoms of stomach, liver or bowel derangement, or
if you desire a more effective laxative for children, women and old
folks. A guaranteed, permanent home cure. THE

The Best He Knew.
Gladstone, a Jamaican negro, was
assistant to a district physician in the
Central Zone, and, being rather poor
in his Latin, the bottles had been
numbered for his benefit. One day
a Spanish laborer came in for medi-
cine and the doctor told his worthy
assistant to give him two pills out of
number six. After he had gone the
doctor asked:
"Gladstone, did you give the man
a dose of number six?"
"Oh, no, sir, doctor; number six
was finished, so I just gave him one
pill out of number four and one out
of number two." March Lippincott's.

OLLIE JAMES FOR ONE OF BIG FOUR

Chosen by All Democrats With
Out Dissenting Voice.

Louisville Times Mentions Those Who
Probably Will Go to Denver
Convention as Delegates.

FIRST DISTRICT ASPIRANTS.

The Louisville Times indulges in
the following political gossip:

Democrats are beginning to take
some interest in the delegations
from the state to the Democratic na-
tional convention at Denver.

Although Democrats of all persua-
sions were of the opinion some days
ago that both Senator James H. Mc-
Creary and former Gov. J. C. W.
Heckman should be sent as two of the
delegates-at-large to the national con-
vention, some Democrats say if Heck-
man and McCreary do not stop the
controversy over the now celebrated
primary of 1906 that both should be
kept at home.

It is apparent from expressions of
Democrats that harmony should be
the watchword, and those who try to
create further dissension are go-
ing to get the cold shoulder and a
dear ear.

Representative Ollie M. James, of
the First district, is the only man up
on whom all Democrats have already
united for one of the four delegates.
In a recent letter to a friend in Ken-
tucky Mr. James said all factions of
the party should be brought together
and when that was accomplished, W.
J. Bryan would carry Kentucky by
30,000 majority.

In the First district State Senator
P. S. Maxwell, of Marion; S. A. Nor-
man, of Mayfield, and Jake Corbett,
of Wickliffe, are probable candidates
for the two delegations.

J. T. Griffith, of Owensboro; Jesse
Phillips, of Earlinton, and Representa-
tive George Wilson, of Sturgis, are
spoken of in the Second district.

In the Third the names of Logan
Porter and James Richardson, of Glas-
gow, have been suggested.

In the Fourth Representative Ben
Johnson, of Hardstone, is certain to be
one of the two delegates.

In the Fifth district no names have
been suggested yet.

In the Sixth district State Senator
R. H. Brown and A. H. House have
been mentioned by their friends.

In the Seventh, former Lieut. Gov.
W. P. Thorne, State Senator Thomas
A. Combs and J. W. Newman have
been urged to make the race. Senator
Combs said: "I appreciate the mention
of my name, but I am not a candidate.
I propose to use whatever influence I
may have in behalf of Charles J.
Bronston, of Lexington."

"Bronston has been a Democratic
wheel horse in our district and I feel
that he deserves the honor. But me-
dian for Bronston instead of for
Combs."

State Representative W. E. Dow-
ling, of Lawrenceburg; R. H. Tomlin-
son, of Garrard county, and Jerry
Sullivan, of Richmond, are suggested
for delegates from the Eighth district.

James N. Kehoe and S. W. Hager
have been mentioned in the Ninth, but
it is not known that either wants the
honor.

In the Tenth John C. Mayo and
former Congressman F. A. Hopkins
have been suggested, while it is un-
derstood that R. C. Ford, of Middle-
boro, and Ben V. Smith, of Somerset,
may become candidates from the Eleventh
district.

Everything comes to the strenuous
chap that goes after the good things
the other fellow is waiting for.

CHARM THE FAT AWAY.

To reduce by means of exercise or
dieting is nothing but torture to the
flesh and mortification to the spirit. It
is so much simpler to "charm" it
away. Of course, I don't mean by
"spells" or "incantations," but
through the occasional use of this
home receipt, viz.: 1/2 ounce Marmola,
1/2 ounce Fluid Extract Cascara Aro-
matic and 3 1/2 ounces Syrup Simplex,
which any one can obtain at any drug
store for a small sum and mix at
home. Take a teaspoonful after
meals and at bedtime. It literally
charms the fat away. Takes it off just
where you need it off and does it
quickly but harmlessly. Many per-
sons lose as much as a pound a day.

Isn't that "charming" off the fat—
eat what you please and still lose a
pound a day—without strain, injury
or effort?

A BLESSING TO MANY PEOPLE

May Mean Much Less Sickness
Here When This Prescription
Is Known by People in Pa-
ducach.

IT IS A HOME MADE REMEDY.

This is a simple home recipe now
being made known in all the larger
cities through the newspapers. It is
intended to check the many cases of
rheumatism, kidney and bladder trou-
bles which have made so many cripples
and invalids and weakenings of some of
our brightest and strongest people.

The druggists here have been
notified to supply themselves with the
ingredients, and the sufferer will
have no trouble to obtain them. The
prescription is as follows: Fluid Ex-
tract Sassafras, one-half ounce; Com-
pound Kargon, one ounce; Com-
pound Syrup of Sarsaparilla three
ounces. Mix by shaking well in a bot-
tle. The dose is one teaspoonful after
each meal and at bedtime.

Recent experiments, even in severe
hospital cases, prove this simple mix-
ture the remedy for rheumatism,
because of its positive action
upon the eliminative tissues of the kid-
neys. It compels these most vital or-
gans to filter from the blood and sys-
tem the waste impurities and uric acid
which are the cause of rheumatism. It
cleanses the kidneys, strengthens them
and removes quickly such symptoms
as backache, blood disorders, bladder
weakness, frequent urination, painful
urination and discolored urine. It acts
as a powerful stimulant to the entire
kidney and bladder structure, puts
new life into them and invigorates the
entire tract.

All the ingredients, states a well-
known local druggist, are of vegetable
extraction, making it a safe and harm-
less prescription at any time.

Those who suffer and are accus-
tomed to purchase a bottle of patent
medicine should not let a little incon-
venience interfere with making this
up.

alarm was turned in the fire had burned
the inside badly, and when com-
panies Nos. 1 and 1 answered the

No one was at home, but it is pre-
sumed that the blaze originated in the
kitchen. The loss will be between
\$300 and \$400.

CHURCH MONEY

Stolen By Thief Who Tore Open the
Envelopes.

A thief entered the home of Mrs.
T. H. Puryear, 214 Jefferson street,
Sunday afternoon while the family
was out enjoying a drive, and stole
about \$75 of money. Mr. Samuel T.
Hubbard had taken the morning col-
lection of the Broadway Methodist
church and placed it in his desk in a
front room. The desk was locked and
the family went for a drive. When
the family returned at 5 o'clock Mrs.
Hubbard found the rear door open,
but nothing was missed until after
church at night when Mr. Hubbard
went to add the evening collection to
the morning, and then a search re-
vealed that the money was missing.
Diamonds and jewelry were in plain
view of the thieves, but only money
was missing from Mrs. Hubbard's
room. The police are working on
the robbery. Mr. Hubbard traced the
thief a short distance by church en-
velopes that had been torn open. The
amounts written on these envelopes
showed that at least \$20 was taken.

IOWA FIGHT HAS NO SIGNIFICANCE

Both Factions Will Support
William H. Taft.

Senator Allison Apparently Has Better
of Contest for Delegates to
Convention.

T. TAGGART SAYS IT IS TAFT.

Des Moines, Iowa, March 17.—Re-
publicans of Iowa will meet in state
convention at Des Moines Wednesday
and elect delegates to the national con-
vention at Chicago. There will be 1-
181 delegates. Attorney General H.
W. Myers has been selected for tem-
porary chairman. While the perma-
nent chairmanship has not been decided
upon, George D. Perkins is most fre-
quently mentioned for the place.

While there has been considerable
rivalry between the two factions of
the party for control of the conven-
tion, the controversy will probably
not have any effect on the action of
the convention regarding the instruc-
tions to the delegates. One faction
is headed by Governor A. B. Cum-
mings, while the other is led by United
States Senator Allison. The contro-
versy has centered mostly around the
campaign of Senator Allison for re-
election to the senate as against the
efforts of Governor Cummings to sup-
plant Allison. The faction that mis-
ters the most votes in the state con-
vention will name the delegates-at-
large to the national convention and
write the platform. Unofficial returns
from county conventions, the last of
which was held Saturday night, in-
dicate that the adherents of Senator Al-
lison will have a substantial majority
of delegates to the state convention.

Followers of Senator Allison will prob-
ably control the selection of district
delegates in seven of the eleven dis-
tricts of the state. The First, Sixth
and Eighth districts have already se-
lected delegates and instructed them
to vote for the nomination of Taft for
president.

Taft and Bryan, Says Taggart.
French Lick, Ind., March 17.—Col.
Thomas Taggart, chairman of the na-
tional Democratic campaign commit-
tee, has just returned from Chicago,
where he completed the formal ar-
rangements for the Democratic con-
vention in Denver in July. "Taft and
Bryan will fight it out for the seat at
the white house," said Col. Taggart
when asked who he thought would be
the nominees for the next presidential
race.

PAPKE WINS IN
10 ROUND BOUTGets Decision Over Hugo Kelly
at Milwaukee.Kelly Was Knocked Down in First
Round But Was Up in Instant—
Clutches Indulged In.

IT WAS VERY LIVELY MATCH

Milwaukee, Wis., March 17.—Billy Papke, of Spring Valley, Ill., was last night awarded a decision over Hugo Kelly, of Chicago, in a ten-round bout, which went the limit. Papke earned his victory principally by knocking Kelly down in the first round for a count of two and in the fighting thereafter was the aggressor. He carried the fight to Kelly and worked his famous "cork-screw" uppercut with considerable frequency.

Papke easily had the better of the opening round through his knock down, which followed a hard right to Kelly's jaw. The Chicagoan was up in an instant. The balance of the rounds were a series of clinches and some fighting.

Kelly got in some body punches in the second round and had a slight advantage of that period. The third round closed with the honors even and was a succession of clinches.

The fourth was a repetition of the third, there scarcely being a free blow delivered in the round, ending with honors even. Papke came at his man in the sixth and the boys exchanged some lively blows and engaged in lively fighting with Papke seeming to have the advantage. Kelly was suffering from a bad cut over the left eye at the end of this round, with blood flowing.

The seventh was similar to the sixth. The eighth was made up mostly of clinches. Papke had the ninth by a good margin, staggering Kelly early in the round with a right to the jaw and then chased his man around the ring, coming into clinches. Kelly got in some good punches.

The closing round was a shade Papke's and consisted of in-fighting with an exchange of but five free blows.

WANTED TO ADORN ROOMS OF
CITY SCHOOLS.Teachers Ask Public to Contribute to
Fund—The Turner Art Exhibit.

Arrangements are about completed for the Turner art exhibit, which will be held in the "Three Links" building March 24-27-28. Superintendent Carnegie has received favorable reports of the exhibit from the cities, where the traveling art gallery has been shown. Wednesday the Jefferson and Whittier buildings will view the pictures and Thursday the Longfellow and Lee buildings. Friday the children of the Franklin and McKinley buildings will attend and Saturday has been reserved for the students of the Washington building.

All of the citizens of the city are invited to attend any day that may be convenient. Each pupil will have a piece of his work on exhibit also. The women's club may assist and give receptions on the days of the exhibit. The workmen will be through remodeling the "Three Links" building, and during the exhibit the rooms will be made as attractive as possible. A committee of teachers has handed Superintendent Carnegie the following report:

Art Exhibit.
The walls of many of our school rooms present to the eyes of the pupils, and hence to their minds, only bareness, — whereas, with suitable decoration, they could be made to convey a sense of comfort or cheerfulness, always conducive to better work, and to inspire the thought when the eyes wander from the lesson page as they will.

The plan of giving our children a more comprehensive idea of the value of good pictures can be furthered in no better manner than by means of the Horace K. Turner art exhibit.

DOES YOUR SCALP ITCH?

Are Your Hairs Dropping Out by Ones?
If your scalp itches you are doubtless suffering from dandruff. The dandruff germ is digging up your scalp in little flakes, called dandruff and sapping the life of the hair bulb. Newbro's Herpicide is the latest scientific discovery; and it will kill the dandruff germ. RAILROAD NOTES

Supt. A. H. Egan, of the newly formed Louisville-Nashville, division of the Illinois Central, is in the city. Among the other changes resulting from the consolidation of the two divisions is that the place of trainmaster on the Nashville division has been abolished and former Trainmaster Meehan is now chief dispatcher, F. P. Oren, roadmaster of the Nashville division, is assistant to A. F. Hlaess, now general roadmaster of both divisions.

The pay car for the Illinois Central came in today at 10 o'clock and will spend the remainder of the day in the city, leaving tomorrow morning at 9 o'clock to pay off between Paducah and Memphis. Stores will be kept open tonight for the accommodation of the railroad men.

Robert Keeney, the car repairer whose foot was shot off Washington's engines,

birthday by the accidental discharge of Will Hutchen's shotgun while the two were duck hunting, was able to leave the hospital and go to his home for the first time yesterday. The wound is healing rapidly, but it will be many weeks before he can walk without using two crutches.

Iten Scott, one of the car repairers who was included in the reduction made recently, has gone to Oklahoma to seek employment.

Four new tracks are being laid in the yards used for repairing cars at the shops. A large force of laborers is employed on the job, which will take several weeks to complete.

Work continues to be rushing in the locomotive department at the shops, while the small force in the car department has all it can do in keeping up the running repairs. In the locomotive department there are 75 engines to be repaired and it will require many weeks to get out the work that is now planned on these engines.

NEWS OF KENTUCKY

Ready for Riders.

Mayfield, Ky., March 17.—The American Tobacco company received today a galling gun which is being placed on top of its warehouse to ensure night riders should they undertake to destroy tobacco or property.

One Man Favored Night Riding.

Mayfield, Ky., March 17.—At a mass-meeting today of 500 farmers belonging to the Graves County Dark Tobacco association, all with the exception of one grower, voted in favor of a public condemnation of night riding. The dissenting man lost at the next call and said that he was in favor of night riding under existing conditions. Resolutions were drawn up at the meeting in which the present lawlessness was condemned in forceful words. Meetings will be called for next Saturday night at every school house in the county when expressions of opinion on the night riding will be denoted.

Changes His Mind.

Lexington, Ky., March 17.—R. M. Squires, a well-known farmer of this county who recently had four of his finest cattle poisoned, lost four more yesterday. It is believed the depredations are the results of night riders' work, as they occurred shortly after Mr. Squires had announced his intention of raising tobacco next year. Mr. Squires has issued another statement in which he declares he will not raise any tobacco in 1908.

Since the raid on Saturday in Woodford county many threatening letters have been received by men who intend to raise tobacco, and they now announce that they will not risk growing a crop, saying they believe it will result in disorder and bloodshed. The country people are greatly excited.

Taft in the Second.

Henderson, Ky., March 17.—The Republican committee of the Second district will meet in Henderson this afternoon for the purpose of selecting the time and place to hold the Second district convention. Saturday, May 2, is expected to be the time of the convention, and Henderson seems to have the lead for the place.

The convention will be called for the purpose of nominating a candidate for congress, selecting two delegates to the Chicago national convention, instructing these delegates, and selecting a presidential elector and an assistant. W. P. Scott, of Dawson Springs, an outspoken Taft man, is the chairman of the committee, and there are said to be enough committeemen favorable to the candidacy of Taft to give him decidedly the best of any resolutions adopted. Henderson, Davless, Hancock, Webster, Union, McLean and Christian counties will send their county chairmen to the meeting.
